

Heritage Quilters 2019 BOM – Twist Block

This block has several different names, Twist Block, Basket Weave, and Bright Hopes. Your finished block should be 12 1/2 inches square no matter what you call it.

Check your measurements very carefully. Each unit should measure 6 1/2 inches and the completed block 12 1/2 inches when it is finished. Accuracy from beginning to end will assure that your blocks come out perfectly. Measure carefully, sew carefully, and you will have a perfect block.

For the Twist Block you will need:

Cut four 2 1/2 inch squares from white fabric.

Cut eight 2 1/2 by 4 1/2 inch rectangles from a red fabric.

Cut eight 2 1/2 by 4 1/2 inch rectangles from a blue fabric.

We will take one of the 2 1/2 inch white squares, and add to it in a rotating manner, a 2 1/2 inch X 4 1/2 strip, of alternating colors.

It is VERY important that you start each Twist Block with the same color, to achieve the correct order. Press away from the center.

Step one, Sew your first rectangle to the square, but only half way! This is very important. You'll come back and finish it later.

(You are viewing the rectangle from the RIGHT side of the fabric, and the white square is the WRONG side.)

Continue around, adding your strips in order.

Step Five is sewing the rest of your first rectangle down, and your twist square unit is finished.

This finished unit should measure 6 1/2 inches. Sew four of these units and put together as shown at the top of the page. Your finished block should measure 12 1/2 inches.
